Each Fibonacci Stone tile is individually made to size to achieve a thinner, versatile, flexible tile with advanced strength and durability.

Fibonacci Stone provides versatile, long-lasting solutions for interior application, with a specific focus on quality in both finish and function. Fibonacci Stone's custom-made terrazzo tiles have diverse application potential, are low in maintenance and last for a minimum of 30 years.

Designed to integrate into any interior environment our terrazzo tiles are custom-blended to provide a perfectly homogenous aesthetic and depth of colour which will evolve alongside your interiors, while maintaining their original quality and strength.

Fibonacci Stone terrazzo products are comprised of a varied combination of aggregates, tones and colours that have been carefully designed to ensure every product will blend seamlessly with a wide range of interior colour schemes. Importantly this means interior schemes can be refreshed over many years without the need to change the Fibonacci Stone floor.

Fibonacci Stone terrazzo tiles are produced in state-of-the-art manufacturing facilities. This ensures the products extreme durability, environmental sustainability, ease of maintenance, high level of stock on hand coupled with the ability to offer custom colours and tile sizes for specialist projects.

As the only terrazzo tile supplier to achieve a 100 percent Green Star rating. Fibonacci Stone provides customers with terrazzo tiles that represent an ethical and environmental flooring solution for all interior situations.

Terrazzo stone tiles are manufactured from a unique blend of natural materials including mineral aggregates and pigments. Tonal variation will appear due to the natural materials used and is considered an inherent characteristic of its unique aesthetic. Completely homogeneous, Terrazzo tiles can be re-polished in-situ years following installation bringing the surface back to near new finish.

COLOURS

ARTIC ICE'S spectrum of pale greys and cool blue accents provides a subtle and versatile finish.

ASPEN features a fine grain, sheen and crystal highlights accentuated by a smooth finish.

DOVE GREY, characterised by its tonal composition featuring an array of neutral shades.

CLASSIC WHITE offers a smooth, faultless flooring finish with hints of tonal complexity which provides a pared back flooring solution for contemporary interiors.

IPANEMA WHITE merges pale marble aggregates of white, bone, and grey with a subtle beige cement to create a subtle and elegant finish.

PLATINUM'S fine grain and neutral palette of warm greys, beige is highlighted with bold accents to produce a versatile and flexible finish well suited to contemporary or traditional interior schemes.

NOUGAT combines subtle tones of white, beige, grey and dusty pink to create an exclusive flooring solution with the versatility to compliment bold or neutral interior scheme.

STORM'S contrast pale aggregates of white, bone, and pearl grey marble with a stormy grey cement for a bold and graphic look.

CARBON'S unique spectrum of warm greys, browns and black provides a rich and versatile finish suited to wide range of interior colour schemes where a resilient, warm yet subtle finish is required.

EARTH'S spectrum of blue-brown tones, ranging from pale powder blues through to dark matte browns, blend to create a warm, natural tonal palette, ideal for interior spaces where aesthetic appeal and durability are foremost.

BEDROCK'S bold aggregates in a spectrum of blue-brown tones, ranging from pale powder blues through to dark matte browns, blend with its deep grey concrete base.

GRAPHITE offers a bold, subtle complexity achieved through its deep grey and warm brown particles highlighted with white accents.

TECH INFO

TERRAZZO TILES MATERIAL & CHARACTERISTICS

It is important to gain an understanding of the material composition and characteristics of the various types of Terrazzo tiles when specifying and prior to installation.

COMPOSITION Fibonacci Stone Terrazzo tiles are produced finished and do not require further polishing following installation. Tiles are manufactured using specialised techniques with the final product consisting of more than 75% natural stone bonded with an inorganic binder (Portland cement) and pigment oxides used for colour. This allows the density to increase, resulting an exceptionally strong but thin profile product with excellent physical mechanical properties. All monolayer Terrazzo tiles are classified

moisture sensitive and the right choice of materials and installation methods is essential to the success of your installation.

AESTHETIC Consistent with all cementitious and natural stone products, tonal variation in the final aesthetic will appear due to the natural materials used. During and immediately following installation, Terrazzo tiles will continue to release small amounts of moisture and will typically show a lighter shade to the perimeter of the tile known as “TV effect”. This is a result of evaporation of moisture and will reduce over time.

VERSATILE Terrazzo tiles can be polished in-situ to achieve a completely flat floor surface. This is an option sometimes considered for shopping centres and airports where trolleys are being utilised.

SIZE GUIDE

Dimensions in mm.

600x600x20

600x400x20

400x400x15

MATERIAL Natural stone and cement
NOTE Product variation may occur due to natural material used
CARE Sealing required

EDGING & PROFILES

Fibonacci Stone Terrazzo tiles are completely homogeneous and can be profiled to create edging as required. Use only experienced stonemasons with required tools and methods to achieve the optimal result.

SLIP RESISTANCE

Produced standard in honed finish, Fibonacci Stone Terrazzo tiles meet the Australian Standard for Slip Resistance for most domestic and commercial applications.

All Honed Fibonacci Stone Terrazzo tiles possess the following slip rating – Max “W” Low Risk, Min “X” Moderate Risk – Appendix A Wet Pendulum (Four Slider)

Full details are available from a sales representative at Adelaide Marble.

Colour shown above is Classic White. Not all colours available in each size. Please speak to a sales representative for stock availability and prices.
